

THE ISRAEL WE IMAGINE

April 7th, 2022

8:00 PM

We invite our entire parent body and grandparents to “The Israel We Imagine: Speaking with our Children about Israel,” led by world renowned teacher and scholar, Dr. Elana Stein Hain, of the Shalom Hartman Institute of North America.

The war between Israel and Hamas in May highlighted the ways in which our students are growing up in a world with different narratives and assumptions about Israel, its goals, purposes and significance in our lives compared to the world in which we grew up. Dr. Stein Hain will lead us in a discussion about how to understand these new developments, and how to discuss them with our children and grandchildren in a way which will foster a deep and enduring commitment to the future of the State of Israel.
